Description:
DISTRICT HOUSING

Policy No. 401-P

The Board of [Education](#) recognizes that there is a general housing shortage within the District for its employees. The Board will therefore attempt to provide appropriate housing accommodation for employees subject to availability of housing units. Such financial burden shall include, but not limited to, action taken for non-payment of rent, aesthetic or physical damage to a unit inside and outside, and disrupting the peaceful enjoyment of tenancy to neighbours.

Free standing housing units with three bedrooms or more were constructed for family use. When vacant, these homes shall be allocated to families with minor children occupying the home.

Rental rates shall be determined by the Board.
