

SCHOOL DISTRICT NO. 92 (NISGA'A)

Policy Subject: UTILIZATION OF STUDENT RESIDENCE BY THE GENERAL PUBLIC

Date Passed: 90.09.11

Date Amended: May 21, 2019

Description:

UTILIZATION OF STUDENT RESIDENCE BY THE GENERAL PUBLIC

Policy No. 401-P

It is the policy of the Board of Education, subject to prior needs of the educational programme, to make the Student Residences available to communities within the School District. Commercial interests within the School District or interests falling outside the School District may be granted use of the Student Residences, subject to such regulations as the Board may from time to time approve.

The responsibility for administering such regulations is vested in the Secretary Treasurer.

1. It is the policy of the School Board to grant permission of rental and for use of the Student Residences by the general public, with preferences being given to school age children; rental and use being permitted in lieu of other suitable adequate facilities being available within the surrounding area.
2. Rental fees will be charged after assessment of use and according to a rent schedule as approved by the Board and governed by regulations. Rental agreement forms will be executed.
3. All renters will be subject to direct supervision by School District personnel.
4. Permission shall not be granted for the consumption of illegal substances, alcoholic beverages or smoking on School District property.
5. It is the policy of the Board to ensure that all rules and regulations, be they Federation, Provincial, Band Council, or School District, be adhered to at all times.
6. Playground areas will not be out of bounds to the public after school hours, but use will be at the user's own risk. All supervised school use takes precedence over public use.
