

Nisga'a School District No. 92 is pleased to welcome Nicole Rue as Vice-principal Gitwinksihlkw Elementary School, as well as providing additional administrative support at Nisga'a Elementary Secondary School.

Nicole is excited to be joining the SD92 team. She has been working as a teacher in the Vancouver School District and Waterloo Region School District for seven years, and as a summer program facilitator for the Quantum Learning Network in Indonesia, Hong Kong, and the U.S. Nicole is half Indonesian and half Malaysian - so she comes

from the ocean and the mountains, and her heart feels at home in either environment. She is passionate about her work, and learning about experiential learning, educational neuroscience, and holding space for all people to continuously discover our boundless potential. Nicole looks forward to meeting, learning about, and from everyone!
