As you are most likely aware the Ministry of Education and the Premier announced today a restart of the economy. As part of that plan it also included a move from our current phase 4 state in schools to a new phase 3 by June 1st.

Phase 3 is a voluntary option for parents of K-5 students to send them for direct instruction at school for up to 50% of a school week, and for Grade 6-12 students to come to school for one day a week for direct instruction

At the strong recommendation of the Nisga'a Emergency Preparedness Committee, and Nisga'a Valley Health, NLG and Village Governments, and supported by the Board of Education School District 92 will not move forward with increased opening of schools at this time.

While we will continue to plan for a shift to phase 3 or beyond, our District will remain as we are, until confidence by Nisga'a Lisims and Village Governments and the Board of Education believe we are ready to open up. More detailed information will follow next week.
