

STRONGSTART

Strongstart BC programs provide rich learning environments designed for early learning development - language, physical, cognitive, social and emotional. Qualified early educators [ECEs] lead learning activities where children find opportunities to make friends and interact with others of similar age. ECE facilitators provide a positive early learning experience for children (aged birth to five) and their families. Their goal is to create an interactive, play-based environment that supports caregivers and children to enjoy learning together, develop essential skills and prepare for a transition to school.

BC Ministry of Education
