

A Superintendent's Week #1 In SD92, Nisga'a

Some of the narration Matthew provided:

- My first week in the valley presented the beautiful land, the river which has brought its wealth of food sources inland from the ocean for thousands of years.
- In my conversations with staff, community members, parents and the basketball team I emphasized the five core values which have guided my decision making (personally and professionally) for over 20 years. I've seen many of those same words reflected in signs and posters around the district— this has resonated with me and all those I have connected with in the past week.
- I look forward to my work here for Nisga'a learners.
